## THE JOURNEY

# A subject for every spark

From the basics to the brilliant — all in one joyful place.

### Core academics

Maths, English, Science, Reading & Grammar — taught step by step, concept by concept.

### World maths

Vedic, Abacus, Singapore & Russian methods from around the world — mental-maths tricks that make numbers feel like magic.

### Competition prep

Maths Kangaroo & AMC 8 — mock contests and 48 clever strategies that build real problem-solving.

### Languages

Spanish with native pronunciation across 90 lessons — with French & Mandarin on the way.

### Skills for life

Money, History, Psychology, Communication & Coding — the whole child.

14 SUBJECTS · K-8

## WHY KIDS STICK WITH IT

# How it helps your child

It meets every child where they are — their level, their pace.

### Adapts to each child

Lessons adjust to a child's level and pace — slowing down when they struggle, stretching them when they're ready. No child is bored, none left behind.

### Learning that feels like a story

Each idea arrives as a colourful card kids swipe through — curiosity first, so they want to keep going.

### Explains it as many times as needed

Stuck on a concept? The lesson slows down and re-teaches it a different way — patiently, as many times as a child needs.

### Homework help, the right way

Snap a photo of a tricky problem and get guided to the answer with questions — never just handed it.

### Practise that feels like play

Word, maths, logic & memory games plus a quick daily challenge keep the habit alive and fun.

BUILT AROUND THE CHILD

## ★ TRUSTED & LOCAL

# Safe, sound & made for India

Quality you can trust, content that fits.

### Safe by design

No ads. No data selling. No chatting with strangers. Just learning.

### Made for Indian classrooms

Mapped to NEP 2020 & NCF 2023 — competency-based & holistic, with examples in rupee (₹) and Indian context.

### Parents stay in the loop

See what your child is exploring and celebrate the wins together.

### Built on India's learning principles

- ✓ Competency over rote — mastery, not memorising
- ✓ Experiential — stories make ideas stick
- ✓ Holistic — academics + life skills + languages
